Gas, Sourness and Indigestion Quickly Banished

Stomach Distress Vanishes in Five Minutes and Dyspepsia Is Easily Conquered by Mi-O-Na Stomach Tablets.

If your food ferments in the stomach and gas forms and sour food belches into the mouth MI-O-NA stomach tablets will stop the misery in five minutes.

If you have any symptoms of indigestion, don't waste time. Put your stomach in shape before indigestion takes command.

Indigestion or any chronic stomach trouble leads to loss of vigor and vitality. Half the nervous wrecks in America today can blame indigestion for their condition.

Fermentation of food means that your stomach is run down; that your food does not digest and that the blood is being supplied with nutritive element, cannot supply the various organs of the body with sufficient nourishment.

That's why indigestion often causes eye weakness, brain fog, palpitation of heart, inactive liver and even pains in the kidneys.

Get a 50 cent box of MI-O-NA stomach tablets today at any drug store. Don't waste time with relieves; get the cure right that cures as well as relieves. Kelly & Pollard guarantee it.

That drowsy feeling after meals accompanied by heaviness at pit of stomach means that you are in danger of indigestion.

Start to put your stomach right before it goes so far wrong that serious results will follow.

Keep MI-O-NA stomach tablets with you all the time; take one or two after or with meals and stomach distress will never appear. A man can easily carry a box in his vest pocket. A woman can carry them in her purse. They will surely cure any case of stomach distress, if used as directed.

"SYRUP OF FIGS" FOR INDIGESTION, BILIOUSNESS AND CONSTIPATION.

Better than castor oil, calomel or cathartics to cleanse your stomach, liver and 30 feet of bowels. Harmless Laxative for men, women and children.

Primitive folks did not need laxatives. They lived outdoors, ate plenty of fruit, and all of their food was coarse. We modern people are different. We exercise too little, eat little fruit, and our food is too fine—too rich.

We simply can't have our ten yards of bowels clogged up. Liver clogged with sour bile and stomach full of foul effluvia matter and feel well. It means that the food and waste retained in the stomach and 30 feet of bowels ferments—decays. The decay creates poisons, gases and acids, and those poisons are sucked into the blood through the very ducts intended to suck in the nutriment. Then we have sick headache, become dour, our tongues coated, nervous, meals don't digest, and we feel miserable all over. So we must make our choice. We must live like

primitive folks, else we must take artificial means to move the excess bile and waste matter out and out of the system.

The safest, most harmless and effective stomach, liver and bowel cleanser and regulator for men, women and children—is delicious Syrup of Figs, which doesn't irritate, gripe or weaken. Its effect is the effect of fruits. It is composed entirely of luscious figs, senna and aromatics. Don't think you are drugging yourself. Syrup of Figs can be constantly used without harm.

Ask your druggist for "Syrup of Figs" and Editor of Sentinel will send the label that it is prepared by The California Fig Syrup Company. This is the only genuine—the old reliable. Refuse, with contempt, the so-called Fig Syrup imitations sometimes offered to deceive you.

URGE REVISION OF JUDICIAL SYSTEM

Bar Association Committee Recommends Change; Texas Is Behind.

Austin, Tex., May 2.—An entire revision of the judicial system of the state was recommended today at a meeting of a committee of eight headed by chief justice Brown, chairman of the committee, to the Texas Bar Association at a meeting held in the offices of the chief justice. This committee was appointed by the Bar association to make recommendations for the relief of the congested condition of the supreme court.

The committee recommends that the association urge upon the next legislature to appoint a commission to work on the revision. The committee will also recommend the passage of the supreme court relief bill, which failed at the last session of the legislature.

The committee finds that Texas is years behind the judicial system of some of the older states.

MOUNTAINS CRUMBLE; ENGULF LARGE AREA

Phenomena of Nature Causing Excitement in Jemez Mountains.

Santa Fe, N. M., May 2.—The weather bureau reports a remarkable landslide 40 miles west of Santa Fe in the Jemez mountains, which has engulfed a large area. Native are afraid to approach the brink of the sink, as trees and rocks along the edge are still crumbling away into the abyss. Large cracks are also opening in the earth north of Jemez Springs.

The entire range consists of extinct volcanoes, which were active in recent geological times, and has many hot, sulphur, iron and other mineral springs and lava flows that destroyed prehistoric cities and cliff dwellings. The weather bureau also reports an unprecedented snowfall of two to four feet in the same section and a rise of a foot in the Jemez every night the past two weeks from the snow melting during the day.

CALISHER COMPANY TO BE REORGANIZED

Business Men of City Will Help to Put Business on Firm Basis.

J. Calisher is to be given a fine example of the real El Paso spirit of co-operation. Friends of Mr. Calisher, his business associates in El Paso for years and the men who are making an effort to develop the city, have agreed to assist him in the reorganization of his company, and the Calisher store, pioneer dry goods institution of El Paso, will be open for business again within two or three weeks, according to attorney J. L. Dyer, who is arranging for the reorganization.

Mr. Dyer, accompanied by Mr. Calisher and J. U. Northman, returned from New York Wednesday afternoon. While in the east they consulted with the creditors, whose accounts had been pressed and had caused the company to enter the bankruptcy court. All of these companies, Mr. Dyer says, were more than anxious to assist in the reorganization of the bankruptcy in order that the big Calisher store might be reopened.

An adjustment with the creditors is to be arrived at shortly and a composition in bankruptcy, by which the company will be discharged from the bankruptcy court shortly. In the meantime preliminary steps are being taken for the reorganization of the J. Calisher company on a better basis than ever. Mr. Calisher has received assurances that he will be assisted financially in the work of reorganization by his El Paso friends.

An offer of settlement will be made as soon as the schedules are filed with the court and the creditors have given the company assurances that the offer of settlement will be acceptable. As it requires but a two-thirds vote of the creditors in order to obtain the desired release, it will be only a matter of a few days until the Calisher company will again be on its financial feet.

"The eastern creditors received us most cordially," Mr. Dyer said. "They offered to do anything possible to assist Mr. Calisher and expressed their regrets that the store was closed. Although the matter will require some time to arrange, I feel certain that the Calisher store will be open for business on a better and more substantial basis than ever."

GALVESTON HAS SALOON DECREASE

Licenses of 48 Revoked, and All Close Their Doors.

Austin, Tex., May 2.—The controller today received a telegram from county attorney Crowley of Galveston county, advising that the 48 saloonmen whose licenses were revoked for the violation of the liquor law had closed their places of business today. This means 48 less saloons at Galveston.

The controller also announces his intention of prosecuting other saloonkeepers out of all the saloons in Galveston.

TAP LINE RULING TO BE ENFORCED

Interstate Commission Declares Court Cannot Enjoin.

Washington, D. C., May 2.—Tariffs filed with the interstate commerce commission canceling allowances made by trunk lines with so-called "tap lines" must be observed by the trunk lines and shippers or they will face prosecution for criminal violation of the interstate commerce act and the Elkins act.

This is the determination of the commission of a unique situation that has arisen as a result of its decision of the "tap line" case. The tariffs filed with the commission by the trunk lines canceling the allowances made to the tap lines were to have become effective at midnight April 30. Four hours prior to that time, on application of some of the tap lines, the circuit court of Missouri a state tribunal—granted an injunction to restrain the St. Louis, Iron Mountain & Southern and other southwestern lines from canceling their through routes and rates with the tap lines.

Immediately inquiry was made of the commission as to what tariffs were effective. In every instance the commission replied:

"Cancellations took effect at midnight April 30. Rates filed must be observed by carriers and shippers if criminal violation of interstate commerce act and Elkins act is to be avoided."

The commission holds that no court can enjoin a thing already done. The tariffs complained of were filed by the commission to become effective at midnight April 30, the legal notice of 30 days having been given. The commission had exchanged rate charges in pension of the tariffs—given months and they had to go into effect automatically. It is understood that the commission has issued dismissing pending tap line cases. The matters in controversy may be carried to the commissioner's court and eventually to the United States supreme court.

TAP LINE DECISION INAUGURATES FIGHT

St. Louis, Mo., May 2.—The issuance of temporary restraining orders against several large railroads in the southwest yesterday marked the opening of what local lumbermen declare is to be a bitter fight against the interstate commerce commission's recent tap line decision.

The cancellation of present tariffs to common rate territories, according to the lumbermen, will be to force tap lines to charge for local hauling in addition to the through rates charged by the trunk lines, increasing the cost of hauling about 5 cents a hundred pounds.

As the decision affects only those points within the southwestern blanket of common points, those within the blanket east of the Mississippi river still will enjoy their through rate of 18 cents a hundred, 1 cent lower than that of the southwestern blanket before the decision.

Lumbermen voiced various opinions as to the outcome of the decision if it is permitted to stand, but all agreed that it will result in increasing the cost of lumber about 20 percent. Eighty percent of the lumber tonnage moving into St. Louis territory originates in the southwestern blanket and only 20 percent in the eastern blanket. Seventy percent of the entire tonnage originates at tap line points. The effect of the cancellation of tariffs, according to lumbermen, will be to create a much greater disparity than that which now exists between the east and west.

The chase which lumbermen say will result, will not, they say, be confined to the lumber industry, but will affect other hauls on coal, iron, stone, salt and kindred commodities, depriving

FIFTEEN FREIGHT CARS ARE WRECKED

Track Had Been Damaged By Train Passing Bodega Previously.

Belen, N. M., May 2.—A wreck which caused the destruction of a considerable amount of property, although no one was injured, occurred at the station of Bodega, a few miles from Belen, delaying traffic for some time. A freight train had gone west and after going for some distance discovered that a wheel had broken. This had torn up the track for a short distance, unknown to the crew of the first train. Several freight trains passed the spot where the track was torn up, but all were going at a slow rate of speed, and no damage was done.

Another train, going at a greater speed, reached the spot, and 15 cars in the middle of the train were derailed. Several of the cars contained merchandise, and the remainder were empties.

The crew of the train which caused the damage was detained in Belen for the purpose of making an investigation, and this is still in progress.

Dr. Ludden, field secretary of the board of home missions of the Lutheran church, occupied the pulpit of the church of that denomination in Belen on two evenings this week. He was detained in order that he might make an extensive report to his board.

A company of young people were guests of Mr. and Mrs. E. C. Zweiger at their home, in honor of H. E. Davis, who has left the city. "Five hundred" was the chief attraction of the evening.

Mrs. S. K. Cotton was hostess to a number of friends at a "five hundred" party.

The Aid society of the Methodist church held its regular weekly meeting at the home of Mrs. J. M. Witherspoon.

H. Emory Davis, who for the past several years has occupied the position of druggist and head of the hardware department of the John Becker store of Belen, has left the city for Albuquerque. He will go to his former home in Wisconsin.
